Azure API Management

App Service - WebApp

Need to create an app service (containing app service plan), add api to it, try to use api

Gateway, limitation on api calls for bots perhaps, by restricting continuous requests

It provides applying web api key

[illegible]

The screenshot shows the Postman interface with a workspace named "Jasleen Kaur Sohah's Workspace". The selected collection is "FinalSmartBank". The environment is "No environment". The request is a GET to "https://apim456478y85.azure-api.net/WeatherForecast". The response is a 401 Access Denied error with the following JSON body:

```
1 {
2   "statusCode": 401,
3   "message": "Access denied due to missing subscription key. Make sure to include subscription key when making requests to an API."
4 }
```

The screenshot shows the Postman interface with the same workspace and collection. The request is a GET to "https://apim456478y85.azure-api.net/WeatherForecast". The response is a 200 OK status with the following JSON body:

```
1 [
2   {
3     "date": "2026-04-16",
4     "temperatureC": -8,
5     "temperatureF": 18,
